# CAMPUS <sup>TM</sup> Intelligent School ERP

FOR MODERN EDUCATIONAL INSTITUTIONS

TRANSFORM YOUR INSTITUTION INTO A FULLY  
DIGITAL SMART CAMPUS

Education is evolving rapidly, and modern institutions require efficient, transparent, and intelligent management systems to operate successfully.

Schools [Primary to Higher Secondary]

Colleges & Educational Institutes

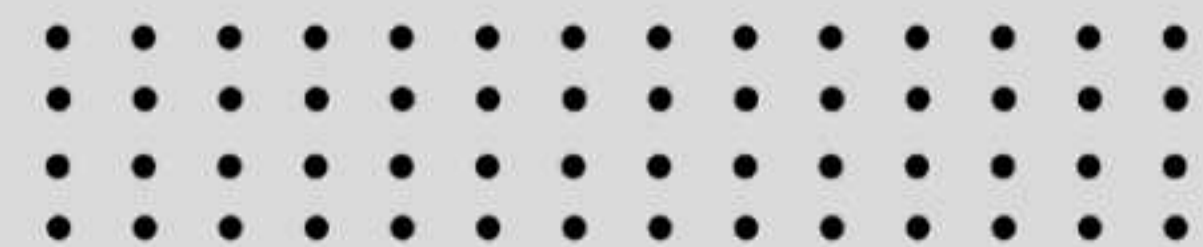

Coaching & Training Centers

Residential Schools & Hostels

Educational Academies

**CampusOS™** is a next-generation **School Management ERP Software** designed to automate, simplify, and digitize every academic and administrative process within an institution.

From **student admission to examination results**, from **fee collection to parent communication**, CampusOS connects every department, every stakeholder, and every process into a **single unified digital platform**.

The result is a **fully automated, efficient, and digitally connected campus**.

## About CampusOS™

CampusOS is a **comprehensive school automation ecosystem** that centralizes academic operations, administrative management, financial control, and institutional communication into one powerful system.

Designed with **modern web technology and scalable architecture**, CampusOS helps institutions streamline operations, reduce manual work, and improve transparency across departments.

With **40+ integrated modules and 8 role-based user dashboards**, the platform ensures seamless collaboration between **administrators, teachers, parents, students, and staff**.

## Ideal For

- Schools (Primary to Higher Secondary)
- Colleges & Educational Institutes
- Coaching & Training Centers
- Residential Schools & Hostels
- Educational Academies

**One Platform. Three Powerful Solutions.**

[Website](#) • [School ERP](#) • [Mobile App](#)

CampusOS integrates **three essential digital systems** into one seamless ecosystem, ensuring institutions have a complete digital infrastructure.

## Smart School Website

Create a professional online presence for your institution.

### Features include:

- Dynamic Website CMS
- News & Announcements
- Events & Activities
- Photo & Video Galleries
- Online Admission Forms
- SEO-Friendly Structure

Your website becomes a central communication hub for students, parents, and visitors.

## CampusOS School ERP

A powerful ERP engine that manages every academic and administrative operation.

### Key capabilities include:

- Student Lifecycle Management
- Fee & Financial Administration
- Attendance Monitoring
- Examination & Result Processing
- Staff & HR Management
- Real-Time Reports & Analytics

This ensures efficient management and complete institutional transparency.

# Mobile Application

Stay connected anytime, anywhere.

The CampusOS mobile platform provides real-time access to essential information for students, parents, and teachers.

## Parents can:

- Monitor attendance
- Pay fees online
- Receive announcements
- Track academic progress

## Teachers can:

- Mark attendance
- Manage assignments
- Enter exam marks
- Communicate with parents

## Students can:

- Access study materials
- View timetables
- Track homework
- Check results

# Role-Based User Dashboards

CampusOS provides secure role-based access control, ensuring that each user only sees the tools relevant to their role.

### Super Admin

Complete system control including multi-campus management and global configuration.

### Admin

Manage academic operations, students, staff, reports, and institutional workflows.

### Teacher

Manage attendance, assignments, exams, lesson plans, and communication.

### Accountant

Handle fee collection, financial transactions, expense tracking, and reports.

### Receptionist

Manage enquiries, visitors, calls, and administrative communication.

### Librarian

Maintain book inventory, track issues/returns, and manage library resources.

### Parent Portal

Parents track their child's attendance, results, fees, and academic progress.

### Student Portal

Students access assignments, study materials, schedules, and results.

# Key Advantages of CampusOS

CampusOS delivers measurable operational benefits for educational institutions.

- Complete Institutional Automation
- Centralized Data & Information System
- Secure Role-Based Access Control
- Real-Time Monitoring & Reporting
- Online Fee Payment Integration
- Improved Parent-Teacher Communication
- Mobile-Friendly System
- Cloud or Local Server Deployment

Institutions using CampusOS experience a significant reduction in administrative workload and improved operational efficiency.

## Core Functional Modules

### Student Management

CampusOS manages the entire student lifecycle from admission to graduation.

#### Features include:

- Online Student Admission System
- Digital Student Profiles
- Academic History Tracking
- Student Promotion Management
- Document & Record Storage
- Transfer Certificate Generation

All student records are securely stored and instantly accessible.

### Smart Fee Management System

CampusOS provides an advanced financial module designed to simplify institutional fee administration.

#### Key features:

- Flexible Fee Structures
- Online Fee Collection
- Scholarship & Discount Management
- Late Fee & Fine Calculation
- Instant Fee Receipts
- Due Fee Tracking
- Financial Reports

This promotes discipline, accountability, and institutional transparency.

## Digital Attendance Management

Track attendance with speed and accuracy.

### Capabilities include:

- Daily Student Attendance
- Staff Attendance Monitoring
- Class-Wise Attendance Reports
- Monthly Attendance Analytics
- Optional Biometric Integration

This promotes discipline, accountability, and institutional transparency.

## Examination Management System

CampusOS simplifies the entire examination lifecycle.

### Features include:

- Exam Creation & Scheduling
- Digital Marks Entry System
- Grade Calculation Engine
- Automated Report Cards
- Academic Progress Reports
- Result Publication

This ensures accurate evaluation and efficient exam management.

## Academic Planning & Management

Manage academic operations from a centralized system.

### Key capabilities:

- Class & Section Management
- Subject Allocation
- Teacher Assignment
- Timetable Scheduling
- Homework Management
- Lesson Planning

This helps institutions maintain structured academic planning and improved teaching coordination.

# Administrative Management Modules

## Human Resource Management

Manage all staff-related operations efficiently.

- Staff Profiles & Records
- Attendance Monitoring
- Payroll Processing
- Leave Management
- Salary Reports

## Library Management

Digitize your library operations.

- Book Inventory Management
- Issue & Return Tracking
- Member Management
- Library Reports

## Transport Management

Organize and manage school transportation services.

- Bus Route Management
- Driver Information
- Student Transport Allocation
- Transport Fee Management

## Hostel Management

Efficiently manage residential facilities.

- Hostel Room Allocation
- Room Categories & Charges
- Student Hostel Records

## Inventory Management

Track institutional assets and resources.

- Equipment Tracking
- Stock Management
- Store Inventory Monitoring

## Integrated Communication System

CampusOS includes a powerful communication infrastructure that connects schools with parents and students instantly.

### Communication tools include:

- Digital Notice Board
- SMS Notifications
- Email Alerts
- Event Announcements
- Parent-Teacher Messaging
- Internal Staff Chat

This ensures fast, reliable, and real-time communication across the institution.

## Reporting & Institutional Insights

CampusOS provides comprehensive analytics and reporting tools to support data-driven decision-making.

### Available reports include:

- Student Reports
- Fee Collection Reports
- Attendance Reports
- Examination Reports
- Financial Reports
- Transaction Reports

These insights help management analyse performance and improve institutional efficiency.

# Advanced Technology Features

CampusOS is built using modern, secure, and scalable technology architecture.

Fully Web-Based  
ERP Platform

01

Mobile-Friendly  
User Interface

Multi-Language  
Support

02

03

Secure Database  
Infrastructure

Automated  
Backup & Restore

04

05

Role-Based  
Security System

PDF Export &  
Digital Reports

06

07

Easy Customization  
& Integration

08

# Optional Advanced Add-on Modules

Extend your ERP capabilities with advanced modules.

## Zoom Live Classes Integration

Conduct real-time virtual classes directly through Zoom.

## Google Meet Virtual Classes

Create and manage live online classes using Google Meet.

## Multi-Branch School Management

Control multiple institutions or campuses from a single dashboard.

## QR Code Attendance System

Automated attendance tracking using QR code scanning.

## Behaviour Tracking System

Monitor student discipline and behavioural records efficiently.

## CBSE Examination Pattern Module

Specialized examination tools for CBSE curriculum management.

## Online Course & LMS Platform

Create and deliver digital courses and learning content.

## Two-Factor Authentication Security

Enhanced security layer for login and user access protection.

## Why Institutions Trust

~ Neynel IT Pvt. Ltd.

Educational institutions partner with us because we deliver:

- Reliable & Secure Software Solutions
- Professional Technical Support
- Customisation as per Institutional Needs
- Scalable Enterprise-Level Systems
- Continuous Product Innovation
- Affordable Implementation & Maintenance

Our mission is to empower educational institutions with intelligent digital infrastructure.
